SERVICE UPGRADES	LITE	GENERAL	PREMIUM	CUSTOM
E-commerce Upgrade				
E-commerce setup	€ 1,000	€ 900	€ 800	-

Clients on any package can upgrade their website to a full e-commerce store. This one-time additional service adds product catalog setup, shopping cart, payment gateway integration, and order management features, transforming a brochure site into an online shop. Ongoing hosting and maintenance fees may apply separately.

How to Use this Upgrade

1. Identify your current site type and business needs.
2. Select the e-commerce package that matches your inventory size and feature requirements.

Example Scenario: A client with a 5-page general website opts for the e-commerce upgrade. The service includes configuring e-commerce, setting up 50 products, and enabling payment processors. This upgrade is billed as a one-time fee added to the original package.

Advanced SEO Setup				
Custom Structured Data (JSON)	€ 450	€ 750	€ 1,500	-

Clients on any package can enhance their site SEO with custom structured data implementation. This service adds JSON-LD markup for rich snippets such as products, events, review, and breadcrumbs, improving search engine visibility and click-through rates. This a one-time customization.

How to Use this Upgrade

1. Identify key content elements that benefit from rich snippets.
2. Specify the types of structured data needed based on business goals.

Example Scenario: A client chooses to markup up their product pages with detailed schema including price, availability, and ratings. This structured data is coded into their site, enhancing search result displays and supporting better organic traffic performance.

This document and the prices contained herein have been reviewed, modified, and published as of **August 2025**. This price list is the most current schedule and supersedes any and all previously published price lists, quotations, proposals, or pricing agreements, whether written or verbal, issued prior to this date.

Governing Agreement & Contractual Status

This document is provided for information and reference purposes only. It does not constitute a binding offer or a contractual agreement. All services provided, and any resulting contractual obligations, will be governed exclusively by our Website Development Agreement.

All prices, services, and descriptions in this document are indicative and non-contractual until they are finalized and confirmed within a formal, signed service agreement executed by both parties. Clients are encouraged to carefully review the terms of the applicable agreement before engaging services to ensure full understanding of rights and responsibilities.

Right of Refusal for Complex Environments

All services and add-ons, particularly high-availability options such as the Accelerated Response SLA (e.g. the 3.50 hour reduction to a 0.5-hour response), are subject to an internal technical and operational feasibility review.

We reserve the right to decline the application of specific add-ons, or to propose alternative solutions, if a client's business operations, existing infrastructure, or technical environment are determined to be "overly complex" or otherwise incompatible with the standardized requirements for that service level. This assessment aims to maintain service quality and ensure feasible and realistic delivery of the agreed-upon service levels.

A final confirmation of service eligibility will be provided during the formal quoting process.

General Terms

All prices are exclusive of VAT and any other applicable taxes, unless otherwise stated. Prices are subject to change without prior notice. Typographical errors and omissions are expected. We recommend clients verify pricing at the time of order and reconfirm any quotes prior to contract signing to avoid misunderstandings.

Please review the adjacent documents. These are our standard agreements which govern our contractual relationship and apply to all services utilized. This price list is provided for reference in conjunction with, and is subject to, the terms outlined in these core documents .
